

REMARKS

The drawings have been objected to. Specifically, FIG. 12 has been objected to on the ground that the views are not labeled separately or properly, and FIG. 22A has been objected to on the ground that numbers, letters, and reference characters thereof must be at least 32 cm (1/8 in.) in height. Enclosed are 4 replacement sheets comprising revisions to FIG. 12, 1 replacement sheet comprising revisions to FIG. 22A, and 1 replacement sheet containing FIG. 22B (not revised), which revisions are intended to comply with the requirements to which the objections were addressed. With respect to FIG. 12, the individual graphs therein have been numbered as FIGS. 12A to 12L. To conform thereto, the specification, in the Brief Description of the Drawings, has been amended. In FIGS. 12A, 12D, 12G, and 12J, $C\beta$ has been corrected to $CT\beta$ to conform to the description of these FIGS. It is respectfully submitted that the replacement drawings comply with 37 CFR 1.84. It is therefore respectfully requested that the objection to the drawings be withdrawn.

Claims 1 and 6 have been rejected under 35 USC 112, second paragraph, the Examiner stating that amendment thereof to delete the term "substantially" would overcome this rejection. Claims 1 and 6 have been so amended. It is respectfully submitted that claims 1 and 6, as amended, particularly point out and distinctly claim the subject matter which Applicant regards as the invention. It is thus respectfully requested that this rejection be withdrawn and that this application be passed to issue.

Respectfully submitted,

James C. Simmons
